REACH

Regulation (EC) No. 1907/2006

REACH / Registration, Evaluation and Authorisation of Chemicals

Dear Sirs or Madams,

Regulation (EC) No. 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals of 18.12.2006 aims to simplify chemicals legislation throughout Europe and to enable the safe handling of chemical substances. REACH stands for Registration, Evaluation and Authorization of Chemicals. Since June 2007, the regulation has governed the registration, evaluation and authorization of chemical substances.

We hereby inform you that the products we supply do not contain any substances of very high concern (SVHC) on the candidate list (available at: <https://echa.europa.eu/de/candidate-listtable>) above 0.1% in accordance with Article 33 of the REACH Regulation (Regulation (EC) No. 1907/2006).

The EU suppliers of articles that are processed in our products to a relevant extent are also obliged to inform us without being asked if the products they supply contain an SVHC substance above 0.1%. If we receive such information from our suppliers and thus become aware that the 0.1% by mass threshold for an SVHC substance has been exceeded in our products, we will inform you.

We will also obtain written confirmation from all relevant EU suppliers that no SVHC substances > 0.1% are contained in the products supplied.

Yours sincerely

Karl Kaldenberg GmbH & Co. KG
